

PC Neil Morris has replaced PC Nigel Collins as our village policeman, although he is also assigned to a number of other local villages too. PC Morris has advised that it is important to report any incidents including anti-social behaviour via either 101 or by using the link on North Yorkshire Police website selecting 'Report it' and there are options for the type of report. These will then create an incident report for actioning and a record of the types of issues in the village.

### **PC Collins**

As I am sure you are all now aware the previous beat manager for the area, PC938 Nigel Collins, is currently covering as a Sgt in our Community Safety Hub in Selby and as a result I am now covering the Selby North area.

As a very brief introduction – I have been a Police Officer for just over 14 years, starting in York as a response officer then moving to Selby where I have been for the last 10 years or so. I have spent the majority of my career on Response, and moved to the neighbourhood team just over a year ago, covering the Southern end of the district.

I have lived in the Selby district for nearly 40 years, having moved to the area when I was very young. I attended the local primary school in Hemingbrough, then Barlby High before going on to study at Selby College and Sheffield Hallam University – so I have grown up in the area I am now covering (and I'm old enough to remember Big John – the local bobby when I was at primary school)

I hope to continue the good work that PC Collins has started and share his views of building on existing links between the community and Police and maintaining a regular Police presence in the area I cover.
